Surgeon in Otolaryngology

We are pleased to announce, in partnership with Wentworth-Douglass Hospital, Mass Eye and Ear is expanding services to Somersworth, NH. Ranked #4 in the nation for ear, nose, and throat care and #1 in New England, Mass Eye and Ear is searching for the right physician candidate to join our new facility in Somersworth, NH to provide state-of-the-art medical and surgical care, treating disorders of the ears, nose, and throat and specializing in the diagnosis and treatment of upper respiratory illnesses, allergies, and sleep medicine. **We are in search of a Head & Neck Fellowship trained Otolaryngologist who is also interested in practicing general Otolaryngology.** This position is an important part of the expansion of the Massachusetts General Hospital Cancer Center into this region. Candidates for this position will be expected to participate in the multidisciplinary care of the head and neck cancer patient along with other members of the oncology team. Complex head and neck cases that require a higher level of care can be managed at The Massachusetts Eye and Ear with support and back up from the head and neck service there.
